ATLANTIC COAST LINE.—James H. Chadbourn, of Wilmington, N. C., has sold the Conway Coast & Western Railway to the Atlantic Coast Line. The purchaser agrees to complete the extension 15 miles from Conway to Aynor, N. C. The part of the road now in operation extends 15 miles, from Conway, S. C., to Myrtle Beach.

ATCHISON, TOPEKA & SANTA FE.—An extension may be built from Davis to Sulphur Springs, Tex.

ALABAMA & WESTERN (Ill. Central).—Company has applied for a charter in Alabama to build a railway from northwestern part of Franklin County to Birmingham. The incorporators are J. C. Welling, of Chicago; Stuyvesant Fish, of New York, and Frank S. White, of Birmingham. The officers are Stuyvesant Fish, Pres.; J. C. Welling, 1st vice-Pres.; J. T. Harahan, 2nd vice-Pres.; W. C. Bruen, Sec., and J. F. Titus, Treas. Capital stock is $25,000.

BAY SHORE & PACIFIC.—We are advised that surveys are now completed and that contracts will be let within 60 days for construction of the Bay Shore & Pacific Ry. in San Diego, Cal. It will be 30 miles long. Motive power will be steam and electricity. H. T. Richards is Pres. and Ch. Engr., at San Diego.

BEAUFORT & WESTERN.—Capital will be increased to $250,000. A railway will be built from Morehead City to Beaufort, N. C. Fred. L. Merritt is Pres.; R. P. Foster is vice-Pres., and M. Manley is Sec. and Treas. Charter was granted this company by the last legislature.

BRUNSWICK & BIRMINGHAM—WRIGHT, WILLIAMS & WADLEY have grading contract between Lagrange, Ga., and Birmingham, Ala. The ALABAMA CONSTRUCTION CO., of Anniston, Ala., has been sub-let a contract to grade several miles of line.

BOONE COUNTY R.R.—Company has been chartered to build a line from Madison, W. Va., to Beckley, W. Va., about 40 miles. The incorporators are George E. Price, Harrison B. Smith, J. Edmund Price, H. L. Flournoy and Charles G. Davis, all of Charleston, W. Va.

CLEVELAND, CINCINNATI, CHICAGO & ST. LOUIS.—We are informed by W. M. Duane, Supt. Construction, Cincinnati, O., that contracts for the work of grade reduction in the St. Louis Division between Carbon, Ind., and Coal Bluff, Ind., were recently awarded as follows: To THOMAS McNALLY CO., Pittsburg, Pa.; the OHIO CONTRACTING CO., Cleveland, O.; and O. D. GUILFOIL, Terre Haute, Ind. Work includes 500,000 cu. yds. common excavation.

CANADIAN PACIFIC.—Extensive improvements in the revision of grades and curves are being made on the Crow's Nest Pass line in Alberta, owing to the development of traffic.

Board of Railway Commissioners have approved plans of the C. P. Ry. for a line from Stratford, through North Easthope, to boundary of Waterloo County. Also, plans for a line from Linwood to Listowell.

COLORADO, WYOMING & IDAHO.—We are informed that surveys are being made and right-of-way obtained for this railway. Grading contract will be let at once. Contracts for ties have been let to E. KULL, Encampment, Wyo.; B. T. RYAN, Saratoga, Wyo., and D. M. FORMAN, of Saratoga. The line is to be 44 miles in length from Saratoga to Encampment. Fennimore C. Fullerton, Cheyenne, Wyo., is Pres.; Frank Cramer is Ch. Engr., at Encampment. J. B. Hassett, Sec. Bd. Trade, Saratoga, Wyo., is interested.

CANADIAN NORTHERN.—A line is being graded from Winnipeg to connect with the old Hudson's Bay Ry., running up the east side of Lake Manitoba. This old line has been abandoned for several years but is now to be made a part of the Canadian Northern system. The main line will reach Edmonton by December, and will probably be extended beyond that point before work is stopped for the winter. The new passenger station, terminals and hotel at Winnipeg will cost about $2,500,000. M. H. McLeod, of Winnipeg, is Ch. Engr.

CHICAGO, ROCK ISLAND & PACIFIC.—It is expected that the branch from Coalgate to Lehigh, Ind. T., 6½ miles, will be completed by the end of the year. The line from Traskwood to Crossett, Ark., 107½ miles, with a 35½-mile branch from Summerville to Eldorado, Ark., is being pushed vigorously, with a view to having it in operation in January. Work was commenced last March. It will cost about $3,000,000.

CHICAGO & EASTERN ILLINOIS.—The most important of the extensive improvements authorized by the board of directors are as follows: (1) Large additional terminal yard at Dolton (Chicago city limits); (2) third main track between Dolton and Momence and on other congested portions of the main line; (3) additional passing tracks on all lines; (4) the installation of block signal system on main lines; (5) a cut-off around Danville, Ill., to enable heavy coal trains to avoid the congested yards at that place. The estimated cost is over $2,600,00. Some of the improved facilities will be available for handling the heavy coal traffic during the coming winter. J. F. Hinckley is Ch. Engr., St. Louis, Mo.; W. S. Dawley is Engr. of Maintenance, Chicago, Ill.

DOMINION & GULF.—J. R. Koontz, Pres., Hutchinson, Kan., is reported to have secured funds to begin construction of this line. Company was incorporated to build a railway from Winnipeg, Man., to Galveston, Tex. Work will begin probably next spring.

MEXICO.

The names of parties awarded contracts are printed in capital letters.

PAPER PLANT.—City of Mexico. — The plant of the San Rafael Paper Co. is to be greatly enlarged. The capital stock of the company is to be increased from $5,000,000 to $7,000,000, with that object in view.

JAIL BUILDINGS.—Chihuahua.—Plans are reported to have been prepared for the completion of the new state penitentiary buildings at this place. The cost of the work will be about $500,000. Alfred Giles, 114 W. Houston St., San Antonio, Tex., is Arch.

IRRIGATION SYSTEM.—Chihuahua.—General Luis Terrazas, of this city, is having a survey made for irrigation system which he will establish upon his ranch in this state. Dams and canals will be built and about 200,000 acres of land placed under irrigation.

TUNNEL.—Guanajuato.—The State of Guanajuato proposes to have a tunnel constructed to carry off surplus waters and thus prevent a repetition of the flood which occurred in this city some months ago. Contractors have been invited to visit Cuanajuato up to Nov. 15, in order that they may enter into relation with Engineer Ponciano Aguiler, who will place before them plans, details and necessary information, so that they may present estimates to the State, the Governor of which is Obregon Gonzales. The cost of the proposed improvement is $600,000.

WATER CONCESSIONS.—City of Mexico.—The following applications for concessions for the use of streams, rivers and other bodies of water for irrigation and motor power have been received by the Department of Fomento during the past month or so: Francisco C. THE BURY COMPRESSOR CO., of Erie, Pa., will have one of its air compressors on exhibition at the Paris Automobile Show, which takes place early in December. This machine will furnish air to operate the numerous American appliances sold in Europe by Messrs. Fenwick Freres & Co.

ERNEST C. MOORE announces that his work in connection with the New York Subway has been completed, and that he has opened an office at 21 Park Row (Room 1033), New York, for the purpose of carrying on a general engineering and contracting business.

THE WELLMAN-SEAVER-MORGAN CO., Cleveland, O., has been awarded the contract to furnish for the Wheeling & Lake Erie Ry., at Huron, O., a complete ore-handling plant, consisting of four Hulett ore-unloading machines, equipped with the Hulett patented excavating bucket. These machines will be able to span four tracks, having cantilever at the rear of the machines and folding boom at the front or water side of the machine. The plant is to be completed by May 1, 1906.—The Wellman-Seaver-Morgan Co. has recently closed a number of important contracts for steel works machinery for Great Britain, and mining outfits for Nevada and Mexico.

THE EXPORT SHIPPING CO., 9-11 Broadway, N. Y., announces that it is preparing to fit a ship of 7,000 tons for the purpose of operating a floating exposition. The company intends to rent space to manufacturers who desire to be represented at $50 per sq. ft. The cost will include transportation and berth for representative, and meals will be furnished at $1 a day per person. It is intended to sail from New York about April 1, 1906, returning about June, 1907. The proposed itinerary includes Great Britain, Russia, Germany, Belgium, Spain, Italy, Austria, Egypt, India, Siam, P. I., China, Siberia, Japan, Australia, New Zealand, Peru, Chili, Argentina, Brazil, Central America, etc. The company has published a complete map of the route, sent free on request.

THE ABNER DOBLE CO., of San Francisco, has recently received several orders for Doble tangential water wheels. Prominent among them is an order from the California Gas & Electric Corporation for a 9,000 HP. wheel for its de Sabla power plant. This machine will be similar to the 8,000 HP. Doble wheel installed in the de Sabla plant last year and the three 8,000 HP. Doble wheels recently completed and now successfully operating in the new electric station of the same company. The wheel will operate under a head of 1,530 ft. at 400 R. P. M., and will be driven by a single jet of water, thus making it the most powerful water wheel ever constructed for operation under a single jet of water. Another order from the Cal. Gas & Electric Corporation calls for six 570 HP. wheels for its Nevada City plant. These will operate under a 190-ft. head at 410 R. P. M. A 400 HP. Doble wheel for operation under a 400-ft. head, equipped with jet deflector operated by a Woodward compensating governor, has been shipped to the Chancellor Gold Mining Co., Wenatchee, Wash. The La Grande Water Storage Co., La Grande, Ore., has purchased an 800 HP., 1,150-ft. head, 600 R. P. M. Doble wheel, equipped with a Doble needle regulating nozzle for operation by a Lombard governor. Among other recent orders secured by the Doble Co. are two double 1,750 HP. wheels for the San Joaquin Power Co., Fresno, Cal., for operation under 355-ft. head; one Doble needle regulating nozzle for a large water wheel for the Komata Reefs Gold Mining Co., New Zealand, and a double 700 HP. water wheel unit for Mitsui & Co., Japan, for operation under 210-ft. head, this order including the wheel complete with Lombard governor and gate valve.
